

afficher\_inventaire

afficher\_inventaire  
\_manette

equiper\_sac\_slot

```
graph LR; A[afficher_inventaire] --> C[equiper_sac_slot]; B[afficher_inventaire_manette] --> C;
```

The diagram illustrates a functional dependency or call sequence. On the left, two rectangular boxes with red borders contain the text 'afficher\_inventaire' and 'afficher\_inventaire\_manette'. On the right, a single rectangular box with a black border and light gray fill contains the text 'equiper\_sac\_slot'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the right box, indicating that both functions on the left are associated with or call the function on the right.
